

Here's a few simple questions for each BOE member to answer individually please:

4a) Have you personally met your obligation to the taxpayers to thoroughly evaluate all aspects of the \$67,000,000 referendum?

4b) Have you personally determined that the \$67 million dollar referendum as presented is our best possible course of action?

4c) If it is not, why would you allow the community to make a \$67,000,000 mistake?

4d) How much money has been earmarked in the next budget to address the "meets few expectations" overall rating at the High School?

4e) Do you have what it takes to answer these simple questions?

KASD and the BOE should not allow this massive tax hike referendum to move forward if they believe it is not in the best interest of the community, period.
