

**DEBUNKED! Dr. Ebert's Cherry Picked Questions Report DEBUNKED! (He won't dare answer what people really care about)**

**How immature and unprofessional of Brad Ebert to pose such a question.**

**He is an embarrassment!**

**Many very smart people wanted no part of joining Dr. Ebert's silly Club.**

told.

I have seen in the local paper that a couple members of our community continually criticize everything that is done in our district, and now are criticizing the 25 to 30 focus group community members for their work with this project; that is a shame. Why does the local paper continue to print these things? Didn't everyone have the chance to be part of the group and be part of the solution to the problems at Kiel Middle School?

Answer: Yes, all community members had the chance to be part of the focus group; the District sent out invitations when the focus group was being formed. We are proud of those community members that participated and helped the District/School Board determine what they believe is the best path forward.

**Fact: the focus group was nothing but political trickery to let the school board off the hook for financial malfeasance**

**Fact: no one on the Focus Group has provided any qualifications to make a \$67,000,000 recommendation.**

**Fact: Fighting to stay awake for a few presentations doesn't qualify any group for anything!**
