

**Here's a few questions for the BOE:**

**3a) Have you done any due diligence of any kind regarding the appropriateness of a \$67,000,000 referendum for our District above and beyond accepting the "Community Focus Group" recommendation? May we see that documentation please?**

**3b) Did you accept the "Community Focus Group" recommendation at face value, or did you conduct a due diligence process to verify their qualifications to make such an important decision? May we see that documentation please?**

**3c) Surely a \$67,000,000 recommendation must be made in writing to be taken seriously, can we see the written recommendations of the "Community Focus Group" please?**

**3d) Were all members of the Community Focus Group of the exact same mind on this very complex issue? May we see all vote tallies taken, and the proper documentation of the dissenting opinions please?**

**3e) What the heck, can we see every document produced by the Community Focus Group not otherwise requested elsewhere in this email please? We are dutifully following their multimillion dollar recommendations after all, correct?**

**(Consider the above questions as open records requests please)**
